

Jaromír Šimša will receive

the [Paul Erdős Award](#) of the **World Federation of National Mathematics Competitions** for 2020; this award is biannually delivered to at most three mathematicians all over the world.

The Paul Erdős Award was established to recognise contributions of mathematicians who have played a significant role in the development of mathematical challenges at the national or international level and which have been a stimulus for the enrichment of mathematics learning.

We warmly congratulate Jaromír Šimša on this outstanding achievement!
