Dear Friends of Hikes and Mathematics,

Extreme hike! The 32nd mathematical hike is planned on the **31st of July. Meet at 06:00 at the Main Train Station of Brno** .

We go by train (leaves at 06:12), **then approx. 53 km to get back to Brno**. This means that there is no train to catch, no time pressure as at the 31st hike. This hike favours shorter options: you can leave at 19 and 36 km mark comfortably. Evaluate your strength and join us.

All information and photos can be found at https://conference.math.muni.cz/vylety/ . (in CZ)

Have a nice summer, we look forward to you joining us.

Jana Bartoňová and Jonatan Kolegar, organizers
Jan Slovák, Director of the Department of Mathematics and Statistics
