

Dear Friends of Hikes and Mathematics,

the 37th mathematical hike is planned on the **13th of August**.

Meet near the Maloměřice bridge (49.2156853N, 16.6422850E) at 06:30h.

Every participant will contribute to determine the path by a dice roll on predetermined crossroads. Thus it will be (not entirely) a random walk all day (possibility to leave anytime), our goal is to walk 40 km.

All information and photos can be found at <https://conference.math.muni.cz/vylety/> . (in CZ)

Have a great summer,

Pavel Francírek or Jonatan Kolegar, organizers

Jan Slovák, Director of the Department of Mathematics and Statistics
