

Recording available [HERE](#)

This year, the first regular Department Assembly will take place on Wednesday, June 16, at 4pm in the so called "hybrid" form. Thus, the real meeting in M1 will be streamed in real time, too, see the ZOOM meeting invitation below.

The online meeting will be chaired by doc. Jan Kolacek and the programme will involve my report on the department budgeting and development foresight, discussion and the item "other". After the Assembly, there will be a light refreshment served outside the building at the desks in front of the library (if the weather allows).
