

Dear Friends of Hikes and Mathematics,

you are cordially invited to the 38th mathematical hike planned on Saturday, **22nd of October**. **The official start takes place at the bus stop "Komořany, EDP" at 10:36. We recommend the bus 602 at 9:51 at the "Zvonařka" station.**

This hike is a special one as it will be led by our colleague David Kruml through his woods. We leave Komořany following the green path and at "Panská skála" enter the woods. We continue to Viničné Šumice and go back to Brno by bus. The hike is 13 km but crossing the forest cover is more demanding. We strongly recommend proper footwear (for mud, etc.) and protective clothing.

All information and photos can be found at <https://conference.math.muni.cz/vylety/index.php?id=kronika> . (in CZ)

Looking forward to see you soon!

Pavel Francírek or Jonatan Kolegar, organizers

Jan Slovák, Director of the Department of Mathematics and Statistics
